

### SCHOLARSHIPS

## Five GSB Students Win Siebel Award

In recognition of outstanding academic performance and leadership, five second-year GSB students were named Siebel Scholars last fall. The school's deans selected **Christian Doll, '02; Sergey Dyakin, '02; Jason Heltzer, '02; Scott McCafferty, '02; and Andrea McCormick, '02**, for this honor, which gives a \$25,000 cash award to each student to help cover remaining educational expenses. In addition to financial support, the scholars receive mentoring and career assistance from employees and executives at Siebel Systems.

The five GSB students join an elite group selected from top business and computer science programs, including Harvard, Kellogg, MIT, Stanford, and Wharton. Each year, five students from each of the program's 11 participating schools are chosen for this award.

"As the leaders in computer science and business, Siebel Scholars directly influence global policy and economic decisions that shape our future," said Thomas M. Siebel, the company's chairman and CEO. "The Siebel Scholars program is our way of giving on a personal level to these outstanding students and institutions." —E.H.
